

# Youth Community Climate Change Champions Training

**January 21-24th, 2019 at the Yukon Inn in Whitehorse.**

You will gain a deeper understanding of the Global Climate Change situation from both global and local perspectives. They will gain this knowledge by engaging with both the Indigenous and Scientific perspectives.

Topics include:

- Assessing your community's unique needs and priorities
- Developing youth-led projects
- Connecting with professionals, Elders and other youth
- Communications, campaigning, facilitation, and project planning.
- Learning from Indigenous and scientific experts from across Canada

Everything you learn will help you to become a Climate Champion for your community.
