Natural Resources Technician

Permanent Full-Time TKC wage scale 7

Reporting to the Manager of Lands, Resources and Heritage Department (LRH), the Natural Resources Technician is responsible for planning, organizing, implementing, directing and reviewing programs, projects and initiatives related to TKC Natural Resources Management on both Settlement Lands and Non-Settlement Lands. The Technician will carry out these duties to help achieve the Department's mandate.

- Ensure implementation of TKC Final Agreement and UFA provisions, by identifying renewable and non-renewable resource management obligations, participating in co-management bodies, monitoring Yukon Territorial Government (YTG) and federal implementation performance, and carrying out TKC implementation activities.
- Ensure adequate forest management and protection, through forest inventory, forest management planning, and fire management and protection.
- Monitor the forest management activities and practices of YTG and provides input where necessary.
- Provide support to TKC citizens in pursuing traditional on-the-land activities, such as trapping and hunting. Coordinate with other First Nations and YTG on overlap issues related to trapline allocations. Organize and promote workshops and trainings for citizens and maintain and acquire necessary equipment and gear. Monitor non-citizen trapping and hunting on TKC's traditional territory, in particular, elk and bison hunting.
- Provide project management for TKC initiatives related to the collection of environmental data and site-specific environmental clean-up. This includes preparing funding proposals, drafting requests for proposals, preparing contracts, monitoring and receiving contract deliverables, conducting field visits, and equipment maintenance scheduling.
- Assists in developing communications & reporting, including an LRH communications strategy, regular newsletter submissions, briefings, and activity reports.
